PROJECTS

E-Commerce Backend API

- Developed a Spring Boot REST API with entities and repositories for users, categories, products, carts, cart items, orders, and order items.
- Implemented service/controller layers, persistence with Spring Data JPA and MySQL, and API workflows tested with Postman.
- Practised service-layer unit testing using JUnit 5 and Mockito.

Bank Account REST API

- Built REST endpoints for account CRUD, deposits, withdrawals, and account-to-account transfers using Spring Boot, JPA/Hibernate, and MySQL.
- Added server-side balance validation and transaction-related business logic.

Product Inventory REST API

- Implemented product CRUD, stock increase/decrease operations, and category, price, and low-stock filtering.
- Integrated MySQL persistence and verified endpoints using Postman.

Employee Management REST API

- Created a layered Spring Boot REST API for employee management with database persistence and standard CRUD operations.

EXPERIENCE

Java Full Stack Developer Intern — Right Angle Solutions | May 2026 – June 2026

- Assisted with Spring Boot, Hibernate, and MySQL REST APIs; participated in debugging, code reviews, Postman testing, and API documentation.
